**In a Summer frame of mind? Bring the entire family to this Best-of-the-Best Home in Whitehall where you'll enjoy an amazing back yard oasis and room for everyone inside. Ideal for the Multi-generational or extended family, it has three levels of living with each having at least one bedroom and full bath. There's a total of five bedrooms unless you choose to utilize one as an in-home office (it has a separate entrance). The kitchen has a fantastic amount of cabinetry and a veneer stacked stone wall separates it from the living or family room. On a corner lot, your friends and family will have ample parking for all those pool parties you'll be having. And why not? There's an enormous pool with water features, a hot tub, a gas grill, a fire pit, a grassy area, a covered patio with skylights, and plenty of pool apron for sunbathing. A convenient storage shed means you don't have to bring it all inside when the season ends! We welcome you to preview 3204 N 3rd Street and enjoy all that it and the surrounding area has to offer.
